

All our 2019 sales will be through the internet, we will not send out a catalog

TERMS OF ORDERING For 2019

We are running very late this year and most varieties might not be ready till June

This year we will be shipping some of our slips in the old traditional style by pulling and leaving some of the roots intact. Short slips will be sent intact, longer slips will be cut back. We will also use the newer and accepted practice adopted by universities and large commercial growers by supplying “cuts”. This is where the slips are cut off at soil level and shipped **without roots** and some of the leaves also removed. It adds an extra layer of disease control and gets the slips into a more desired size for shipping and reduces stress. They are also packed rather dry, so will be wilted and possibly yellowed. The cuts will root very fast after being planted and kept moist/wet for a few days. Some of them might look like they are inches from death to the unknowledgeable gardener when they arrive, but will spring back to life faster. All they need is a healthy stem. Eventually we will move entirely to cuts.

If you have a question, please email us. DuckCreekFarms@aol.com. If you don't hear back in a reasonable time, please email again. We had problems getting all orders with our server last year and are changing to a faster and better internet service. Hopefully this will elevate “missed” orders this year. We can't answer phone calls or take phone orders. Thanks for understanding.

MINIMUM ORDER is \$19.95 not including shipping, a surcharge will be added if the order does not meet the minimum.

Shipping Dates for 2019

Shipping is \$12.50 per order for 2019.

We are running very late this year and most varieties might not be ready till June

Our Plant Guarantee is that we will send the best slips possible, but will not be liable for damages other than the cost of the slips.

By placing an order with Duck Creek Farms, you acknowledge that you have read and agree to our terms

--

2019 Varieties

Barberman Heirloom

(Heirloom Variety) Early production. Spreading growth habit, regular leaf, orange skin, orange flesh, excellent yields. Short blocky roots grow directly under the plant for easy digging. Very long storage life. Highly recommended. **Very Limited for 2019. This was a slow slip producer so don't expect early shippers. Check Back for availability**

We are running very late this year and most varieties might not be ready till June

Beauregard

Red-Orange skin, orange flesh. Thin stalks, vigorous grower, good producer, fat & heavy sweet potatoes. A typical "yam" type you find in stores. Has pox and nematode resistance. Very dependable producer with a very loyal following. Early production.

Becca's Purple *Limited for 2017 9*

This new to us variety was very productive and produced nice shaped roots. We haven't determined how long it really needs as ours was dug at about 130 days this year, but might have been ready earlier. Intensely dark purple skin and flesh with roots mostly right under plant. Vigorous vine growth. Very Limited for 2017 please limit your order to 12 or less

Cordner's Red (Oklahoma heirloom 1950's)

This is a very compact bush type plant with red skin and orange moist flesh. Excellent for people with smaller gardens. The name "Cordner's Red" was given by local growers as it was never officially released. From the breeding material of Dr. H. B. Cordner of Oklahoma. Fair storage variety and great tasting. A personal favorite. One of our top producers in 2013. Early production/ **Check back for availability and pricing**
